Profile

Junior iOS Developer experienced in building native applications using Swift and Objective-C. Skilled in clean architectures, Core Data, REST APIs, and unit testing to deliver responsive mobile experiences. Passionate about writing maintainable code and continuous technical improvement.

Education

Information Technology Institute (ITI) Oct. 2025 – Present
9-Month Professional Diploma, Mobile Applications Development Track (Native) Ismailia, Egypt

Menoufia University Sep. 2021 – Jul. 2025
BSc. Of Computer Science, Faculty of Computers and Information Menoufia, Egypt

- **Accumulative Grade:** Distinct With Honors, GPA: 3.59/4
- **Graduation Project (Grade: Distinct (A+)): DawaNow**, Mobile app connects users and pharmacies for medication requests, prescription uploads, offers, and order tracking.

Projects

Medsy
- **Overview:** Dual-target iOS app for smart medication fulfillment featuring AI prescription scanning, multi-pharmacy offer aggregation, patient-controlled alternatives, and real-time tracking via Server-Sent Events.
- **Technologies:** Swift, SwiftUI, Clean Architecture, MVVM, REST APIs, Alamofire, Stripe, Server-Sent Events (SSE), AI Integration, Lottie.

Shopify
- **Overview:** Modular e-commerce iOS app built as a custom Shopify storefront featuring GraphQL data fetching, AI-powered shopping assistance, secure Stripe/Apple Pay integration, and EN/AR localization.
- **Technologies:** Swift, SwiftUI, Clean Architecture, MVVM-C (Coordinator), GraphQL (Apollo), Firebase, Stripe, Apple Pay, SwiftData, Swinject (DI), Lottie.

Top-League
- **Overview:** Multi-sport iOS app (Football, Basketball, Cricket, Tennis) supporting EN/AR localization with runtime RTL switching, offline favorites via Core Data, Dark/Light theme persistence, and a fully unit-tested network layer.
- **Technologies:** Swift, UIKit, MVP, Core Data, REST APIs, Alamofire, XCTest.

Todoist
- **Overview:** iOS task manager with a 3-stage workflow (To-Do, In Progress, Done), priority support, file attachments with QuickLook preview, local push notifications, and secure data persistence across sessions.
- **Technologies:** Objective-C, UIKit, MVC, UserDefaults, NSSecureCoding, UserNotifications, QuickLook.

Technical Skills

Languages
- Swift
- Objective-C
- Dart

Architecture & Patterns
- Design Patterns
- Reactive Programming
- Dependency Injection

Frameworks
- SwiftUI
- UIKit
- Flutter

Data & Storage
- Core Data
- SwiftData
- UserDefaults
- SQLite

Testing & Libraries
- XCTest
- Expectations
- RESTful APIs
- Firebase

Tools & Methodologies
- Xcode, Postman, Jira
- Git, GitHub
- Agile
- SDLC

Languages

Arabic
Native
